

# ACC CONVERSION CHART

*Approved by the Star Charter School Governing Board at the May 6, 2009 board meeting.*

The following chart represents which courses at ACC will count as credit toward graduation from Chaparral Star Academy. Semesters are represented by an “a” and a “b” for first and second semester respectively. Any course taken at ACC will not count toward GPA calculation. ACC courses may or may not count toward the graduation plan. This chart does not list every possible conversion, but contains the most common courses. At Austin Community College, courses that count for college credit must be designated as Transfer/Academic Courses (these are shown in the ACC Catalog’s Course Descriptions as indicated by Course Type “T”). Highlighted courses indicate courses that are **NOT** covered by an ECS Tuition and Fee Waiver.
